ROOSEVELT TO GOVERNOR FREAR

THE PRESIDENT WRITES A STRONG LETTER CALLING A CONFERENCE OF GOVERNORS OF STATES AND TERRITORIES TO MEET AT THE WHITE HOUSE NEXT MAY—MOST IMPORTANT QUESTION NOW BEFORE THE PEOPLE.

The mail yesterday brought the following letter from President Roosevelt:

"The White House, Washington, November 11, 1907.
"My Dear Governor:—The natural resources of the territory of the United States were, at the time of settlement, richer, more varied, and more available than those of any other equal area on the surface of the earth. The development of these resources has given us, for more than a century, a rate of increase in population and wealth undreamed of by the men who founded our Government and without parallel in history. It is obvious that the prosperity which we now enjoy rests directly upon these resources. It is equally obvious that the vigor and success which we desire and foresee for this nation in the future must have this as its ultimate material basis.
"In view of these evident facts it seems to me time for the country to take account of its natural resources, and to inquire how long they are likely to last. We are prosperous now; we should not forget that it will be just as important to our descendants to be prosperous in their time as it is to us to be prosperous in our time.
"Recently I expressed the opinion that there is no other question now before

the nation of equal gravity with the question of the conservation of our natural resources; and I added that it is the plain duty of those of us who, for the moment, are responsible, to make inventory of the natural resources which have been handed down to us, to forecast as well as we may the needs of the future, and so to handle the great sources of our prosperity as not to destroy in advance all hope of the prosperity of our descendants.
"It is evident that the abundant natural resources on which the welfare of this nation rests are becoming depleted and in not a few cases are already exhausted. This is true of all portions of the United States; it is especially true of the longer settled communities of the East. The gravity of the situation must, I believe, appeal with special force to the Governors of the States because of their close relations to the people and their

Two Presidential Aspirants

Gov. John A. Johnson, of Minnesota, and Lieutenant Governor Lewis Stuyvesant Chanler of New York are the two latest presidential aspirants. Governor Johnson has rapidly advanced himself to the front rank of national politics by his force of character and his rather original ideas and young Mr. Chanler is one of those

BALL GAME HOLD-UP CAUSING A KICK

CROWD AT YESTERDAY'S GAME RESENTED BEING SHUT OUT OF STAND TO WHICH IT PAID ADMISSION AND TOOK POSSESSION DESPITE THE MANAGEMENT'S PLANS TO GET MORE MONEY FOR THE SEATS.

An attempted hold-up of the public at the baseball game yesterday caused something of a disturbance in the bleacher section, until the matter was settled by a lot of the crowd simply taking possession of seats which had been suddenly promoted to the "reserved" class. The incident served to accentuate a good deal of public feeling over what is criticized as a very grasping local management of the enterprise, and there is little chance that the Honolulu Baseball League will again turn its grounds over to any individual for such a purpose. In future the league itself will handle such affairs, as many think it should have done this time.

In spite of altogether unexpectedly large patronage of the games, the scheme to run up prices and get more money has followed thick and fast since the games began. The climax came yesterday, when a crowd that had paid for admission to the bleachers was kept out, while there was still a big blank space of unoccupied seats on the bleachers. Those who attempted to occupy them were told that they had been "reserved," and that places could be bought in among them.

There was a lot of wrangling, and finally a number of the crowd simply announced an intention of taking the seats, and did so, amid loud cheers from the rest of the bleachers. This helped to relieve the field of crowding to some extent, though the Coast team twice suffered loss of time while hunting for a ball on the "sidelines."

The raise in prices of admission, after it was found that the series of games was a financial success, caused a lot of unfavorable comment about town and more than one business man expressed indignation. "Manager Woods appeared suddenly to decide that the time was ripe for getting all that could be squeezed out of the public," said one business man who had something to do with the making of the enterprise possible, "and it is the last proposition we will help without knowing better how it is to be run."
From the Hygeia yacht committee comes another large-sized kick. It was understood that there was to be a benefit game for the trans-Pacific yacht, but in the general policy of grab all quickly this has been called off too.

Jack Lucas was among those who objected to the shut-out at the bleachers yesterday, and he made himself heard according to habit. Lucas said that the way things were done yesterday was "without a doubt the worst thing that had ever been thrust on the public here. It was advertised that the seats in the bleachers yesterday were to be twenty-five cents," said Lucas, "and when I arrived yesterday at the grounds I was informed that the seats would be \$1. This I objected to on the grounds that Woods had no business to charge that amount after he had made a regular price. It is certainly a skin game of the worst kind and it would be a very good thing if the people refused to go to any more games. It has been a money making scheme all the way through, and the people should object to being flimflammed out of their money the way they have been.

"The games have all been very poor, and the game yesterday was one of the worst exhibitions I have ever seen of the national game. If another such exhibition is forced on the public, I do not know what will happen, as it looks to me as well as it does to a good many others that the teams are not doing their best. I went out to the grounds yesterday with a party of friends expecting to see a good game of ball, but the game yesterday was not even in school boy class. I hope that the papers will take up this skin game at the box office, and that the rest of the games will be good, clean ball."

T. B. Lyons, of Maui, stated this morning to a representative of The Star: "The way the seats were handled yesterday at the baseball game was outrageous. I came down from Maui to see the games, and I expected to get my money's worth, but so far have been unable to do so. I saw by your paper that the seats yesterday were to be two-bits in the bleachers, but when I arrived at the grounds I was obliged to pay one dollar. When I saw the seats I demanded my dollar back. After a good deal of talking at the box office, I was given back seventy-five cents, and had to be satisfied with seats that are as a rule free. I don't mind paying money for its value, but I do object to being stuck."

Island Fleet Being Tied Up

VESSELS AVAILABLE

INTER-ISLAND COMPANY'S PROBABLE POLICY IN THE EVENT OF A TIE-UP.

What to do for inter-island transportation when the engineers of the Inter-Island Steam Navigation Company all quit, as they may any day, is a matter that is now receiving earnest attention.

The American-Hawaiian S. S. Nevada, now at Kahului, may be sought to make a tour of island ports to carry mail, freight and passengers. She would help out to a considerable extent, taking a route that would take in Hawaii, Maui and Kauai and at least guaranteeing the other islands mail during the tie-up of the Inter-Island fleet, a tie-up that might endure for some time.

Whether the Nevada can be procured is not known at present, for it means calling New York headquarters and it is problematical whether she can be spared from the contemplated trip with sugar from Maui to San Francisco, although there was rather well-defined talk recently of the Nevada going on the inter-island run altogether. This talk may have been the result of overtures between

HAWAII GIRLS ARE STOWAWAYS

(Special to the San Francisco Chronicle.)
SEATTLE, Wash., November 17.—The heavy of Hawaiian beauties, which, under the chapter of Mrs. Edyth Weathered, has been touring the Pacific Coast, are tonight stowaways aboard the steamship Jefferson, bound from Juneau to Seattle. The fair stowaways are, however, under the protection of a bunch of big-hearted Alaskans, returning delegates from the Juneau convention.
The trouble of the Hawaiian girls is due to the refusal of the officers of the steamship company to accept drafts on Honolulu in payment for their passage. Mrs. Weathered is a sister of Leroy Tozier, a prominent Alaskan, and he was appealed to. In spite of protests from the stowaway people, the girls were taken aboard the Jefferson, with the promise that their transportation difficulties would be taken care of upon arrival at Seattle.

PASSAGE MONEY NO LONGER ACCEPTED

INTER-ISLAND STEAM NAVIGATION COMPANY NOT SELLING TICKETS FOR THE STEAMERS SCHEDULED TO LEAVE TUESDAY, IN VIEW OF A PROBABLE SHUT DOWN OF THE SYSTEM—TWENTY-SIX RESIGNATIONS.

The Inter-Island engineers' threatened strike for higher wages is gradually materializing, and to an extent is already in operation; nearly all the engineers have resigned; six resignations have already taken effect; the company are transferring men from boats as they come to port to boats as they are ready to go out in order to keep the system going; and Tuesday next is now awaited as the day when the greatest crisis is likely to occur.
Out of thirty-three engineers in the employ of the I.-I. S. N. Co., twenty-six have resigned and the resignations of the remaining seven are momentarily expected. Six men have quit, their resignations having already taken effect and the resignations of twenty of

MORE GAMBLERS GATHERED IN

POLICE MAKE A RAID AND CAPTURE SIXTEEN OF THEM LAST NIGHT.

Thirty three law breakers were in Police court this morning to answer to the different charges against them. Sixteen lovers of "chance" were caught last night in a gambling raid, and as a result the funds of the Territory were increased to a big amount. Two of the gamblers who were caught last night have been convicted three times in the last week for the same offense, and as a punishment for their being so careless, were fined \$10 and costs each. The other fourteen were fined \$5 and costs each.

Four unfortunates who had been taking too much Thanksgiving cheer were obliged to contribute also to the funds of the Territory. Two were fined \$3 and costs each, one decided that he would give up his bail amounting to \$6 and the other one was sent over for a ten day sobering up in the County Boarding house.

Several of the other cases were continued until later dates. The case of assault and battery against Paxson, agent of the Singer Sewing Machine Company, on Hotel street, came up and the court decided he was not guilty after it had heard the summing up of Judge Davis. The complaining witness "Edmunds of loud and disturbing noise" was asked to leave the store one day last week, and not going as fast as he might have gone, tripped up on the door sill and then swore out a warrant for Paxson, claiming that he had hit him. He was not at his best this morning on the witness stand, and the legal argument of Judge Davis before the court was too much for the prosecuting attorney who was unable to make a case against Paxson.

McCloud, who had been arrested for heedless and reckless driving was also acquitted, as the evidence was not enough to make a case against him.

ELKS' MEMORIAL

The Elks Memorial Day services will be held on Sunday at 2 o'clock at the Opera House. The program committee has arranged a very impressive program, and a large attendance is expected.
